

Room

```
classDiagram
    class Room {
        -linkedRooms LinkedList
    }
    class LinkedList
    Room --> LinkedList : -linkedRooms
```

The diagram shows two class boxes. The left box is labeled 'Room' and has three horizontal compartments. The top compartment contains the text '-linkedRooms'. A dashed line with an arrowhead at the right end extends from the middle compartment of the 'Room' box to the middle compartment of the 'LinkedList' box. The right box is labeled 'LinkedList' and also has three horizontal compartments. Both boxes have a light gray shadow on their right side.
